

Vaudreuil-Dorion, February 16th, 2009

Attention: General Managers of the municipalities of the *MRC de Vaudreuil-Soulanges*

Subject : Training sessions re domestic composting

Sir,
Madam,

In order to implement waste management plans (PGMR and PMGMR), the *MRC de Vaudreuil-Soulanges* is offering eight (8) training sessions pertaining to domestic composting in spring 2009 to promote the valorization of domestic organic waste.

Thus, the MRC has mandated the non profit organisation *Terres en Ville* to present these sessions to the Vaudreuil-Soulanges residents. During one of the sessions, a participant will be chosen to receive an ecological compost bin.

The *Terres en Ville* organisation will also be attending two of these training sessions from 3 :00 pm to 8 :00 pm to answer questions from citizens and propose ecological compost bins.

These activities are offered free of charge to all Vaudreuil-Soulanges residents and no registration is required to participate.

Organic waste represents 59% of the total waste forwarded to garbage dumpsites. Thus, composting is a simple gesture that reduces this amount and valorizes organic waste by producing fertilizer.

Attached you will find the calendar of events. Do not hesitate to publish this information in your municipal booklets.

We take this opportunity to advise you that if you wish to receive copies of the guide published by the MRC pertaining to the valorization of organic waste, simply contact us and we will forward them to you.

If you require additional information concerning the above, please contact the undersigned at (450) 455-5753, extension 2224.

We are counting on your usual cooperation.
